Zurab Dalakishvili

Full Stack Developer

I am a experienced Full-Stack Developer with several years in web development, specializing in Node.js, Next, and databases like PostgreSQL and MySQL. I enjoy solving complex problems, optimizing performance, and building scalable, high-quality applications.

Work Experience

Full Stack Developer, Auchistory Inc

August 2023 - February 2025

Developed and maintained **high-performance web applications** using **Next.js, TypeScript, and Tailwind CSS**.

Designed and implemented **VIN code search functionality** and **car auction pages** with optimized SEO strategies.

Built **responsive and modern UI components** using **ShadCN/UI and React** to enhance user experience.

Integrated **Cloudflare Turnstile** for advanced security and bot protection.

Managed **PostgreSQL databases** with **TypeORM**, ensuring efficient data migration and query performance.

Developed **admin dashboards** to manage car listings, page headers, and dynamic content.

Implemented **SSR (Server-Side Rendering)** and **CSR (Client-Side Rendering)** for improved performance and SEO.

Optimized API routes and handled **rate limiting** to prevent excessive bot requests.

Tech Stack: Next.js, TypeScript, Tailwind CSS, PostgreSQL, TypeORM, Jest, ShadCN/UI, React, Express.js

Back-end Developer Intern, Tulix, on-site

March 2024 - September 2024

Learned **MySQL and PostgreSQL**, focusing on queries, indexing, and caching.

Studied **Node.js** backend structure, code organization, and best practices.

Worked on **database optimization**, including query performance and indexing strategies.

Explored **caching techniques** to improve efficiency.

Gained experience in **API design and backend logic**
